REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

As noted by the examiner in the Office Action of November 6, 2003, it would have been obvious to have modified the teaching of Safta such that broadband radiation was utilized to increase the efficiency of germ deactivation as taught by Dunn. In the examiner's opinion, and as argued by applicant in the second and third full paragraphs of page 7 in the Remarks received by the Office on March 25, 2004, it would not have been obvious to have utilized broadband radiation prior to treatment of the water in a filter assembly as Dunn appears to teach away from radiating water that is not substantially free of solid, particulate material. Accordingly, water that is substantially free of solid, particulate material prior to contacting the filter assembly falls outside the scope of the instant invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Fred Prince whose telephone number is (571) 272-1165. The examiner can normally be reached on Monday-Thursday, 6:30-4:00; alt. Fridays 6:30-3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Blaine R. Copenheaver can be reached on (571) 272-1156. The fax phone
